1 About TechBridge East Africa

TechBridge East Africa empowers youth aged 18-35 with free tech training in coding, AI, data annotation, and agri-tech. Our mission is to create 800,000 job opportunities by 2030, starting in rural Kenya and scaling to Tanzania, Uganda, and Rwanda.

2 Training Programs

2.1 Python Coding

Learn Python for web and AI development. 3 months, beginner-friendly. 75% completion rate.

2.2 Data Annotation

Master data labeling for AI models, opening global remote jobs. Flexible online access.

2.3 Agri-Tech Apps

Build tools to boost farming with tech, tailored for East Africa's agricultural needs.

2.4 Digital Marketing

Grow businesses online with SEO and social media strategies. 50% of graduates employed within 6 months.

3 Success Stories

- Amina from Mombasa: Landed a remote data annotation job with a US firm.
- Otieno from Kisii: Started an agri-tech app, employing 5 youth locally.
- Fatuma from Dar es Salaam: Freelancing on Upwork as a coder.

4 How to Join

Apply online at our Training page or email info@techbridgeea.org. Free for qualified applicants, with devices provided for rural youth.
